SPEAKING FOR SUCCESS

HI, I'm Olivia. I'm taking SSP class. One of the advantages in this class is that we have mini-talk and presentation in our speaking time. After then, we get individual feedbacks of our pronunciations and grammatical mistakes.
And our teacher, Seti, gives everyone equal opportunities to speak and she gives us confidence. Also we learn how to organize speaking skills. So that's why I'm taking SSP class third time already. I've got lots of improvement through this class.

Olivia Lee

In SSP am/pm classes, the students have the opportunity to learn more daily and natural expressions, the phonetics and how to interactive easily.
It made me realize that once we are able to speak correctly, we start to understand what people are saying. As a result, I feel more confident to communicate with people on the streets.

My teacher Paulette and my classmates were really nice and friendly, so I felt very comfortable during the class. This class is something different from other class. We make some supplies and fun kits to entertain young children. And also we used to go to observation outside of school. We learn tips and lesson plans to grab young children's attention. - Alternative to ESL: Students who seek a different approach to learning English than a typical ESL course may enjoy the challenge of learning some teaching technique themselves.

- Creative Students: ESL students interested in arts and culture may apply and improve their own creativity by learning Canadian arts & crafts appropriate for children.

- TKT Preparation Program: ESL Methodologies for children is an excellent complement for graduates of SGIC TKT Prep. to increase knowledge for teaching children.
