SGIC News

Allan Garden Conservatory

As you can see, Toronto is colored by yellow, red, and brown leaves as a sign of the cold weather. Students look happy as usual here at the Allan Gardens Conservatory.

It is a greenhouse which means tropical plants that you typical don't see in Canada will be here. There were various types of flowers and plants inside this garden. Allan Gardens Conservatory is open all year long even during the cold winter time!

Welcome Party @ W Burger

We held welcome party for our new students. At this time, we went to W Burger which is located near College station and approximately over 30 students joined.

There were several background such as Ukraine, Japan, Brazil, Mexico, Korea, Colombia, Chile and Canada at this party. We talked about how to say "Cheers" in their own language and cheer with those. They respected each countries and were curious about other cultures. The party was tremendous and it was a good opportunity to get along with new students !

SGIC News

Graffiti Alley

Do you think graffiti is art or vandalism? Graffiti Alley is a place well-known for its street art. The walls in Graffiti Alley are filled up with street art by local artists.

During the summertime, you can probably see some artists drawing up fantastic artwork with spray paints or other materials if you are lucky.

It is definitely a photo spot to visit if you like to use social media. Our students who visited here took many photos!

Watching World Cup 2022

Finally, World Cup 2022 has begun. SGIC 2nd floor is full of excitement and screaming.

Canada joins the World Cup for the first time since 1986. Nevertheless, the students were still rooting for their own country rather than Canada

During World Cup season, SGIC is open from 8 am and there is a big screen on the 2nd floor at the stage area. Some students come at 8 am and cheer for their team before class starts at 9 am. We cannot wait to know which country will win the World cup!! Until then, we guess we will have some drama at SGIC's 2nd floor!

Testimonial

Ryosei Muramatsu from Japan (Level 6/SSP/IELTS)

What did you like about SGIC?

Teacher are really passionate teaching, friendly and helpful. One of my previous teacher correct my mistake every time I made a mistake. It would be impossible if there were many students in one class. What I'm trying to say is that teachers are really really amazing!!! I love all of them. I have to thank you to them.

What courses have you taken? Please tell us your thought about the courses.

I've taken SSP for four sessions and IELTS for two sessions. Talking about SSP, this class is the most useful class that improves my speaking skills. When I just joined the class at first, I was not able to speak English fluently and naturally. But after several weeks, I got use to speak English and got confidence speaking English. There are a lot of opportunity to speak English. So I just didn't miss it and speak whatever you want spontaneously. I'm able to improve my English because I didn't hesitate to speak English. IELTS is really tough class and lots of homework. But it's gonna help you improve all of your English skills. Thanks to the homework, I built and recap English fundamental. I think without this time, I was not able to get to the level where I am. I love Dara (IELTS teacher)!!!!

What would you like to recommend SGIC to others?

As I wrote above, teachers are really passionate and helpful, which encourage us to learn English. Also there are a lot of people who have different backgrounds. This school is not big so you can take advantage of it. You can get along with a lot of people here. That's gonna be precious time that you never forget. Another good point of this school is that SGIC has diploma courses. You can take a class based on your needs. You can get exposure to high level English there and lean a lot of things from each classes.
